TERMS AND CONDITIONS OF AUCTION SALE

1. Subject to reserve prices, the highest bidder shall be the purchaser, and in the event of any dispute arising, it shall be settled by the Auctioneer, unless one of the claimants will advance, in which case the lot or lots shall be put up again. No bidder shall bid a sum less than the Auctioneer nominates and the Auctioneer shall have the right to refuse any bid without giving reason therefore.
2. If the stock is not paid for in cash immediately on conclusion of the sale interest shall be payable by the purchaser on the purchase price at the current rate charged by the selling agent on overdue accounts from the date of purchase until the date of payment. Interest at the said rate shall also be paid by the purchaser on all expenses and charges incurred by the selling agent on behalf of the purchaser from the date such are incurred until the date of payment.
3. No person shall be entitled to bid unless prior to the commencement of the sale he has made arrangements satisfactory to the selling agent for the payment of any stock to him. Should bids of this condition be inadvertently accepted delivery shall not be given until the purchase money is paid, and any law, or practice to the contrary is accordingly negated.
4. Anyone who intends to bid other than on his own behalf shall prior to the commencement of the sale inform the selling agent of the name of the purchaser on whose behalf he will be bidding.
5. The purchaser shall deposit with the selling agent the whole or any part of the purchase money if required at any time during or after the sale.
6. In the event of delivery being made to or possession obtained by the purchaser or his representative prior to the payment of the purchase money such delivery or possession shall be made pro forma only and until the payment in full of the purchase money or of any cheque given on account of same. The purchaser shall hold the stock as bailee only for the vendor and (notwithstanding anything herein to the contrary) no property therein shall pass to the purchaser who shall nevertheless be responsible for the safety thereof. Notwithstanding such delivery or possession payment is due immediately on each lot being knocked down and if payment is not made at the abovementioned time the vendor or his agent shall be at liberty to repossess forthwith and for that purpose to enter upon lands or premises of the purchaser.

7. All stock purchased shall be at the risk and expense of the purchaser upon the fall of the hammer.
8. (a) The right to bid is reserved on behalf of the vendor.
(b) The price called by the auctioneer shall be the amount at which the lot has been sold.
9. All conditions and warranties expressed or implied by law are hereby excluded and as all lots are open for inspection prior to the commencement of the sale the same are sold with all faults, if any, description or number in or of any lots sold or otherwise.
10. If the purchaser shall neglect or fail to comply with any of these terms and conditions any stock knocked down to him may be resold by public auction or private contract in such lots and in such manner as the agent of the vendors may decide with or without notice at the purchaser's risk and he will be held responsible for all loss and expense arising out of such resale and shall not participate in the profit (if any) accruing therefrom.
11. It shall be lawful for and the purchaser authorises the auctioneer and/or the auctioneer's clerk, at their discretion to sign on his behalf the Contract of Sale which shall embody these conditions of sale and on the purchaser's behalf to pay or accept responsibility for payment to vendor(s) of the purchase money so that immediate delivery (which shall be pro forma only) may be facilitated. In such event as between vendor, auctioneer and purchaser, it is agreed:-
 - (a) The purchaser shall immediately reimburse the auctioneer all moneys so paid for which responsibility has been accepted.
 - (b) Pending such reimbursement the stock are mortgaged and charged to the auctioneer to secure such reimbursement and failing such reimbursement the auctioneer shall be entitled to repossess immediately.
 - (c) Without prejudice to any other rights, powers and remedies the auctioneer shall have all those conferred on a vendor by the preceding clauses.
12. Attention is directed to Sections 45 and 46 of the Auctioneers, Stock and Station and Real Estate and Business Agents Act, 1941/57; also to Sections 176B and 178C of the Crimes Act.

DRAKENSBERGER CATTLE

Drakensberger cattle are a medium framed beef animal with a mild temperament and an ability to adapt to all conditions. They have long deep bodies with a very short sleek black coat which helps to repel insects. They have short powerful legs which makes steep and rocky terrain an ease.

This breed is a damline breed, where emphasis is put on female traits such as calving ease, fertility, milk and maternal instincts. Cows remain in production for 16 plus years.

Mature bulls weigh from 820 kg to 1100 kg and cows from 550 kg to 720 kg. Calves weigh approximately 35 kg at birth and have a weaning weight of around 240 kg at 205 days.

Another special merit of this breed is its ability to cross well with both *Bos-indicus* and *Bos-taurus* breeds, making it exceptionally suitable as a motherline breed in cross breeding systems.
